

IDC Congress 8. September 2017

The most important decisions for information are as follows:

1. **HD forms** including X-ray images must be sent to the main office of Dobermann Verein e.V. Feldkirchener Str. 10, D-85551 Kirchheim
2. **Proof of the BH exam for the ZTP:** For the start authorization, the BH must be presented with proof (service card) from the country where the owner has his residence. "Equivalent" examinations (for example TAN from France or an IPO) from abroad are no longer recognized and can not replace the **BH examination in accordance with the FCI examination regulations.**
3. **Proof of parenting for the ZTP:** From 01.01.2020, only dogs whose **parents have a German ZTP** can be admitted to the ZTP. A proof of the HD evaluation from the parents is no longer sufficient. Newly added IDC countries are not affected by this regulation.
4. **ZTP and IDC WM:** Countries that have not paid their membership fee until May 1 will not receive authorization for the alignment of a ZTP and / or no start authorization to the IDC WM.

Information on the standard amendment No. 143 from 01.08.2016, already published in April 2016

In order to prevent further uncertainty among exhibitors and dog sportsmen, here again the explanation of the implementation of the standard, which was confirmed by the FCI from 01.08.2016:

- **Exhibition-according to FCI decision of 07.03.2016 (citation FCI)**
1. **"Countries where there is a general prohibition on the exhibition of cropped dogs (ears and / or tails):** In this case, the country's legal regulations are to be observed as the top regulation and there is **no** possibility of breeding dogs of normally cropped dog breeds events approved by the FCI.
 2. **"Countries where there is no ban on cropped dogs:** in this case dogs of normally cropped breeds can be exhibited without restriction on dogs approved by the FCI. In the case of judging, no distinctions or disadvantages may occur in the assessment, whether docked or not. "
This Decision shall apply from the date of publication until December 2024.

➤ **IDC exhibition from 2017**

1. **The new standard is applied internationally for all dogs born from 01.08.2016. Cropped Dogs who were born after 01.08.2016 are not given any start authorization.**
2. **All dogs who have been raised abroad and Cropped before 1 August 2016 can participate in the IDC for life.**

➤ **ZTP**

1. **The new standard is applied internationally for all dogs born from 01.08.2016. Cropped Dogs who were born after 01.08.2016 are not given any start authorization.**
2. **All dogs who have been raised abroad and Cropped before 1 August 2016 can participate in the ZTP for life.**

➤ **Testing**

1. **All dogs can be tested for examinations, unless other regulations exist in the respective country.
Exception in Germany: Since 2011, the participation of Cropped dogs on the “DV Deutsche Meisterschaft-IPO” is no longer allowed.**

The amendments to the corresponding orders are in progress and will come into force on the above-mentioned terms. After completion, you will find this under:
www.dobermann.de

As a result, all previously published regulations are no longer valid. Liability for the publication of other sources is excluded.
